Perfect as I want to keep that part short. May want to note that NWEA did not address OSDS or New Development and will be doing that during a future public comment period.

I think everyone's been updated on the public comments so not sure we need to run through that in great detail (if at all). I've kept Joelle/Jeff in the loop and I know Christine and Lynda have been on past calls where I provided update.

Happy to provide a very BRIEF summary of state response (moving (slowly) on rule change for fish-bearing, but basically say we got it wrong for the other forestry ad MMs and ag, some concern about where or not they have provided suitable commitment to use back-up authorities for new devel/osds). I haven't focused a lot of NWEA's comment yet (besides an initial quick run through) so not sure I could say more than they are voluminous, pushing for add MMs for ag as well as late comment where they request consideration of add MM for specific landslides. If you're looking for more detail, perhaps you could provide update on NWEA's?

Managers Meeting on OR CZARA

April 10 (12:30 or 3:30 PM)

Non-Responsive

or Christine's Office

Draft Agenda

Overview on Public Comments, State Response & NWEA Response (Allison, pending confirmation)

Strategy/Process for Technical/Legal Review & Recommendations to Management (Jayne)

Recommended Approach for Requesting Extension (Steve, pending confirmation)

Discussion on Management Strategy including setting up a planning meeting (technical, legal, management/policy) to consider strategy for moving forward, including length of schedule extension, negotiation posture with plaintiff, strategy with State, and EPA/NOAA decision.

Next steps including timeframe for next Management Team call

Cheers,
